

ADDENDUM 1

RFB NUMBER:	TE1098 – Network Equipment Upgrade
ADDENDUM NUMBER:	1
ADDENDUM ISSUED:	01/30/2020

I. CHANGES

The original Request for Bid No. TE1098: Network Equipment Upgrade remains in effect except as revised by the following changes, which shall take precedence over anything to the contrary in the specifications.

A. *Page 8, Section VII. Cost Sheet, Attachment A* has been revised. Please see the Revised Cost Worksheet included in this Addendum 1 as Attachment A – Revised Cost Worksheet. Bids will only be accepted on this Attachment A – Revised Cost Worksheet.

II. QUESTIONS & ANSWERS

The following questions are as they were presented to Park Hill School District. The answers to said questions have been answered as completely and accurately as possible.

Q1: In reference to the buildings below please note software image S9400UK9-166 is unavailable. A newer option will be included- is this okay?

- Building 1 - C9407R-96U-BDL-EDU
- Building 4 - C9407R-96U-BDL-EDU

A: Yes, this has been corrected. Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q2: In reference to Building 4 - C9407R-96U-BDL-EDU it appears one C9400-LC-48UX is missing from this device. The line card bundle (contains 2) is selected but only qty (1) C9400-LC-48UX is presently enumerated. Please let us know if there is a misunderstanding here.

A: This is listed correctly. Part Number: C9400-LC-48UX-B includes 2 line cards since it is a bundle. Part Number: C9400-LC-48UX is a single line card. That would make the single C9400-LC-48UX bring the total count for that build to 3 line cards. Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q3: In reference to the buildings below it appears one C9400-SUP-1 is missing from these devices. The redundant supervisor (contains 2) is selected but mandatory item C9400-SUP-1 is not listed. Zero cost items C9400-PWR-BLANK and C9400-S-BLANK are also not listed.

- Building 5 - C9407R-96U-BDL-EDU (both units)
- Building 6 - C9407R-96U-BDL-EDU (both units)

A: C9400-PWR-BLANK have been adjusted accordingly. Build 5 and Build 6 consist of full chassis so there aren't any blank slots for line cards. Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q5: In reference to Building 8 - AIR-AP3802E-BK910, is any controller licensing required for these access points?

A: No additional licensing is required. PHSD has already obtained the DNA licensing.

Q6: As no DNA licensing is listed, does the district intend to opt-out of DNA licensing?

A: PHSD has already obtained the DNA licensing.

Q7: In reference to Building 9 - C9300-24U-EDU for Qty 2x15 power supplies, number of power cables (CAB-TA-NA) should be 30.

A: Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q8: In reference to Building 10 - CP-8832-K9 does this unit require the POE or non-POE power accessory?

A: No, these will be plugged into UPOE line cards. Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q9: In reference to Building 11 and 12 note that the length of Firepower subscription is not the same between the two units (12 vs 36 months). Please confirm which is preferred.

A: Please provide pricing as they are listed for both options. Build 11 is 2 units with 12 months and build 12 is 2 units with 36 months. Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q10: Please clarify the total number of blades required in each chassis. The top level bundled SKU you have selected includes two blades at no cost, additional blades are chargeable line items and we are not sure in your spreadsheet if these lines are in addition to the two free one or if they represent the two that are included. If you can clarify the total number of required blades in each chassis, we will be able to ensure these line items are price out correctly.

A: C9400-LC-48UX-B includes a quantity of 2 C9400-LC-48UX line cards. Anywhere C9400-LC-48UX is listed, it is in addition to what's included in the bundle. For clarification:

Build 1: 4 blades

Build 4: 3 blades

Build 5: 2 full 9407 chassis

Build 6: 2 full 9410 chassis

Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q11: I also noticed that both tabs in your worksheet say "alternate bid", see below. We see the only difference between the two is 3 SFPs. Is this accurate, or did you mean to include a different Bill of Material for the Primary Bid?

A: Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

Q12: I would like to request a spec sheet for your RFP for Network Upgrade equipment to see what manufacture you are looking at and the equipment. Sorry for the short notice I just received this today.

A: The spec sheet is the cost worksheet. Please refer to the above *Section 1. CHANGES, Item A.* for a revised cost sheet.

III. ACKNOWLEDGEMENT

Each bidder shall acknowledge receipt of this Addendum No. 1 of Bid No. *TE1098: Network Equipment Upgrade* by his/her signature affixed hereto and shall attach this Addendum to the original proposal submitted. Failure to sign and submit this addendum may render your proposal Non-Responsive.
