

# Shuruudaha Tallaalka ee Daryeelka Ilmaha iyo Dugsiga barbaarinta ee Missouri 2021

- Dhammaan carruurta waa inay soo bandhigaan dukumiintintiyada heerka tallaalka ee ugu dambeeyay, oo ay ku jiraan bisha, maalinta, iyo sannadka ee tallaalka kasta kahor inta aysan xaadirin daryeelka ilmaha/dugsiga barbaarinta.
- Guddiga La-talinta ee Habdhaqannada Tallaalka ayaa oggolaanayaa muddo 4 maalmood oo dib-udhigid ah. Carruurta waxay ku heli karaan tallaalkada illaa afar maalmood kahor taariikhda loo qabtay.
- Tallaalkada waa in loo bixiyaa sida ku xusan Jadwalka Habdhaqanka Tallaalka ee Guddiga La-talinta, oo ay ku jiraan kala dheereynta oo dhan, (<http://www.cdc.gov/vaccines/schedules/index.html>).
- Ka dhaafida Waalidka/Masuulka (Imm.P.11) iyo Caafimaadka (Imm.P.12) waa la oggol yahay. Kaarka ka-dhaafitaanka ee ku habboon waa inuu ku jiraa faylka. Carruurta aan tallaalnayn waxay ku qasban yihiin in laga saaro daryeelka carruurta/dugsiga barbaarinta markay dillaacaan cudurro tallaalka looga hortagi karo.
- Si ay ugu sii jiraan daryeelka carruurta/dugsiga barbaarinta, carruurta " ay u socoto" waa inay ku lahaadaan Tallaalka foomka U Socoshada (Imm.P.14). U socoshada macnaheedu waa in ilmuhu bilaabay taxanaha tallaalka oo uu haysto ballanta qaadashada xigta. Ballantan waa in la ilaaliyaa iyo diiwaanka la cusbooneysiisay la siiyaa xarunta. Haddii ballanta la ilaalin waayo, ilmuhu kuma sii jiri doono u socoshadan oo uma hoggaansamin. (tusaale, taxanaha tallaalka Hep B waa la bilaabay laakiin ilmuhu weli uma qalmin inuu qaato qaadashada xigta ee taxanahan.)
